TECHNICAL ACTIVITY REPORT

Lecture Meeting on
Role of IT in Supply Chain Management
23rd January 2020 at 7 pm

Er. Nirupam Choudhury, AMIE delivered a lecture on the topic “Role of IT in Supply Chain Management” on 23rd January 2020 at 7 pm at The Institution of Engineers (India), Silchar Local Centre. Er. Gautam Dutta Choudhury, Chairman of the Centre welcome Er. Nirupam Choudhury & other members present. In his deliveration Er. Nirupam Choudhury emphasis on Information Technology revolution changed the world and all aspects of business processes. With an increasing emphasis on technological advancements including software technology as well as the changes in customer expectations, the need for an integrated supply management has become increasingly important. This is where IT comes into play. The use of real time information is the key factor in supply chain management as it enhances supply chain visibility, accountability and profitability at large.

After his deliveration Er. Biswajit Purkayastha, MIE, Hony. Secretary offered vote of thanks. The meeting was ended with National Anthem.
